

Town of Dunn Fence Policy

Fences must be placed only on your own property and outside of the road right-of-way area, typically 33 feet from the center of the town road.

If there are easements on the property, please check with the easement holder to see if a fence would be allowed.

If there is a platted drainageway, fences are not allowed in these locations.

Please check with Dane County Zoning as they DO regulate fencing within special zoning districts. As this a Dane County Zoning regulation, please contact Dane County Zoning at (608) 266-4266.
