- Place extra recycling in clear, plastic bags (up to 32 gallon and no more than 50 pounds) and place the bags next to your recycling cart. Improperly prepared additional recyclables will not be picked up.
- Do not place smaller items inside larger containers. Items should be loose and empty.
- Remove all food waste, plastic, styrofoam, and packing peanuts.
- Your recycling cart will not be picked up if it contains trash, yard waste, or prohibited items.
- In a week containing a Holiday, garbage and recycling pick up is delayed by one day.
- For additional pick-up volume, contact Pellitteri. For a fee, they will provide a 65-gallon or a 95-gallon cart for trash. For free, you may also receive a 35-gallon or a 95-gallon cart for recyclables.

ELECTRONIC RECYCLING

TVs, laptops, cellphones and other electronics contain valuable materials that can be recovered through recycling. Electronics also contain hazardous materials, such as lead and mercury, which can harm human health and pollute the environment if not properly managed. Wisconsin has a electronics recycling law which prohibits the following electronics from being put in the trash or sent to Wisconsin landfills and incinerators:

TVs, computers, printers, scanners, fax machines, monitors, computer accessories such as keyboards, mice, speakers, external hard drives, flash drives, e-readers, VCRs/DVD players, and cellphones.

These electronics can be recycled at various locations across the state. For a list of collection sites, visit dnr.wi.gov and search "ecycle". Some collectors may charge fees and may not accept all devices. Contact collectors beforehand to learn about their policies
