

The
Official TOWN OF DUNN NEWSLETTER Fall 2003

Views From the Town Chair

Edmond P. Minihan, Dunn Town Chair

The Sandhill Cranes are preparing to leave us for warmer climes now that autumn is here. But they will be back in the early spring returning to the habitat our community has protected for them. We can depend upon their return as long as they have a home here.

There are, however, some people who would like to eliminate the welcome we give to the cranes and dozens of waterfowl species that nest or rest in Lower Mud Lake. This is a vital stop over for migrating birds, is an excellent fishing spot, and is beautiful to the human eye. But to those who would annex and develop this area, these features are not important in the quest for more urban sprawl. Certainly our community would not even contemplate such a travesty, but there are some in our neighboring village who want to do just that. This is a very real threat to what we value in our community, and what most people in McFarland value as well.

Unfortunately, the McFarland Chamber of Commerce has chosen to denigrate our citizens and our Town.

This is not just a difference of opinion, those in favor of annexing across the Yahara River display a bald arrogance in the attempt to impose their will on land now in our Town, while the citizens of both communities bear the burden of more costs and the loss of a beautiful and precious natural area. We can only hope the people of McFarland make it clear that they value having the Town of Dunn as a neighbor. McFarland provides value to us as well. There is no good reason for our communities to fight with each other.

It is a mystery why the merchants in McFarland, whom we patronize, would decide to criticize and denigrate our community. Perhaps we should remind them when we shop in McFarland that we are from the Town of Dunn, and good for their businesses.

There are a large number of people in the village who realize the quality of life our two communities offer us now, and value a good relationship between our town and the village. Let's hope the leadership listens to them.

Property Revaluation Begins

By Rosalind Gausman, Clerk/Treasurer

The town signed a contract with our assessor at Gardiner Appraisal Services to do a revaluation of all real estate and personal property beginning this winter. It will be completed for the 2005 Board of Review. The interior and exterior of all property will be physically inspected. A new software program will be used that makes the assessment information accessible on computer vs the field cards used in the past. New digital pictures will be taken of all properties. The cost of the revaluation is \$70,400 plus postage and maps. The town's assessment valuation is at 70% and needs to be raised to 100%. The town-wide revaluation will not affect the 2004 assessments. Any changes in 2004 will reflect changes made to the property since January 2, 2003 through January 1, 2004. The revaluation will reflect the value of the property as of January 1, 2005.

Questions and Answers:

Q - Why is revaluation necessary?
Wisconsin law requires municipalities to assess property within 10% of market value within each four-year period. In 2005 our assessment will be below 90% for the fourth year.

Attend the Revaluation information meeting on January 15, 7:00 PM at the Town Hall to learn more about how the revaluation will affect you.

Q - How does the assessor go about placing a "fair market value" on my property?
Finding the market value of property involves reviewing what similar properties are selling for, what the property would cost today to replace and what financial factors, such as interest rates, may be affecting the real estate market. Valuation techniques for commercial properties also include analysis from an investment point of view. The assessors do not create value. Rather, they have the legal responsibility to discover and report the changes that are occurring in the market place.

Q - How can my assessment go up when my property hasn't changed?
Since the new assessments will be set at market value, rising real estate values in the town will be reflected in generally higher assessments. All properties, however, do no change in value to exactly the same degree. Many factors influence the value of

**TOWN OF DUNN
SPECIAL TOWN MEETING
Tuesday November 18, 2003 7:00 PM**
Dunn Town Hall - 4156 County Road B

**NOTICE OF SPECIAL TOWN MEETING
OF THE ELECTORS OF THE
TOWN OF DUNN, DANE COUNTY**

Notice is hereby given of a Special Town Meeting called pursuant to Wis Stats. 60.12(1)(c), by the Town Board of the Town of Dunn, on November 18, 2003 immediately following the budget hearing at 7:00 PM at the Dunn town hall at 4156 County Road B, McFarland. The purpose of the meeting is:

1. To approve the minutes of the Annual Town Meeting of April 8, 2003.
2. To approve the highway expenditures pursuant to Section 81.01(3) of the Wisconsin Statutes.
3. To approve the town tax levies for the general fund, debt service fund and rural preservation fund for the year 2003.

Town Meetings are the forums at which major issues and town policy are decided. The residents of the town are the decision makers. Every resident of legal voting age present casts a vote. Agendas and announcements for all special meetings are posted at the following locations: the bulletin board outside the Town Hall, 4156 County Road B; Christy's Landing, 2952 Waubesa Ave.; and Quick Stop, 1888 Barber Drive.

Rosalind Gausman, Town Clerk/Treasurer

property, including location, age, size and style.

Q - Will my home be inspected?
An experienced appraiser hired by the town will make a personal visit to your property. The appraiser will need to walk through the interior of your home and also walk around the exterior. The appraiser will be carrying identification and a letter of introduction from the Town of Dunn. If you refuse to let the assessor view your property you lose the right to appeal the value placed on the property by the assessor.

Q - How will I know what my new assessment is?
All property owners will receive a notice of assessment change by mail in 2005 when the revaluation of the whole town is finished. Watch for articles in future newsletters about the dates and procedures for viewing the assessment records and appealing assessment values. If you have questions you may contact the Deputy Clerk, Cathy Hasslinger at 255-4219 Ext. 3.

What's All the Talk About Planning Anyway?

Everybody plans. We make financial plans, vacation plans, plans for retirement, even plans for an evening out. Planning helps each of us work toward achieving our personal objectives - and it helps us do it in an orderly and effective way.

Planning also allows communities to make better decisions. Our communities deal with constant change.

Planning is a process that helps communities prepare for change rather than reacting to it. Planning aids communities in assessing where they are now, where they are going given the trends present, what they'd like to be in the future, and how they can get to that desired future state.

Planning is an orderly, open approach to determining local issues

"Change is the law of life. And those who look only to the past or present are certain to miss the future."

John Fitzgerald Kennedy

and needs, and it helps communities establish priorities and actions to address those issues most important to their future vitality. Planning is also a concentrated effort to reach a balance between the natural environment and residential, industrial, commercial, and agricultural development.

Purchase of Development Rights

By Beth Hastings, Land Trust Commission Chair

This has been another good year for the Town's Purchase of Development Rights Program. We continue to move forward with our plans to preserve as much farmland and open space in the Town of Dunn as we can.

We closed on two farms this past year, adding another 172 acres to the protected land in the Town of Dunn. These purchases were the 105 acre Nelson farm on Hawkinson Road and the 65 acre Graber property along the Yahara River. Both of these transactions are good examples of our plan to make the best use of our limited PDR funds by using grants and partnering with other agencies. We facilitated the Nelson purchase, but all the funding came from the Department of Natural Resources and the USDA-Natural Resources Conservation Service. For the Graber deal, we partnered with the USDA-NRCS and Dane County. The owner also gave us a 15% discount on the appraised price. The grants covered 55.7% of the purchase price. The town paid the rest out of the PDR fund, which is the revenue for the program that comes from your tax dollars.

Through the good work of Renée Lauber, the Town's Land Use Manager, the PDR program was

awarded another matching grant from the USDA-NRCS, Farm and Ranchlands Protection Program. The 2003 grant is for \$319,250. This is our 5th grant from them!

We are currently working with four landowners to purchase their farms' development rights and have ambitious plans for next year. The Land Trust Commission would like to close on the four purchases that we are currently working on plus an additional four. That would be eight total purchases of development rights for next year. As always, the meetings for town residents to approve PDR deals will be posted at the Town Hall, announced on our web page, and when possible in the town newsletter.

Even though our program is now seven years old and quite well established, we are finding that there are always new policy and program issues to address. This year we have discussed and created policies on lot line adjustments and easement donations, continued to review and refine the application ranking criteria, and reviewed property appraisals. Reviewing appraisals is an important part of our process for purchasing development rights. Before we can begin to discuss

Continued on page 3

Finally, a plan is a guide for public officials and the citizens who they represent to use in making informed decisions about issues affecting their community.

So, why all the talk about planning?

The State of Wisconsin enacted new legislation with the 1999-2001 budget that requires communities across Wisconsin to plan. The legislation was developed by a collection of real estate development, local government, environmental, and state government organizations as a way to require community comprehensive planning.

Called the "Smart Growth" Law, this new legislation requires that "any program or action of a local unit of government that affects land use shall be consistent with that local governmental unit's comprehensive plan." The legislation is the strongest growth management legislation ever passed in Wisconsin and the most significant Wisconsin land use legislation of any kind in a generation or more. Plans

Plan Commission Update

By Jim Molloy, Plan Commission Chair

Town Board regarding land division requests, zoning changes, site plans, driveway placements, commenting on various Dane County land use issues, and updating the Town's Land Use Plan, policies and ordinances. Individuals who wish to come before the Plan Commission, should contact Renée Lauber, the Town's Land Use Manager. She will include you on our next agenda and provide you with the administrative details associated with appearing before us.

We are also currently working on the Wisconsin Comprehensive Plan (also known as "Smart Growth") initiative, as we will be responsible for preparing the comprehensive planning document required by this law. As many of you know, this legislation represents an effort by the State of

A comprehensive plan is the adopted official statement of a local government that sets forth (in words, maps, illustrations, etc.) goals, policies and guidelines intended to direct the present and future physical, social, and economic development within the community.

must include elements on:

- Transportation
- Housing
- Utilities and Community Facilities
- Agricultural, Natural and Cultural Resources
- Economic Development
- Intergovernmental Cooperation
- Land Use
- Issues and Opportunities Implementation

Communities must complete their plans by January 1, 2010.

Wisconsin to encourage sound land use planning and attempts to curb urban sprawl and promote better land use. Other articles in this newsletter explain the Smart Growth law and where we are in the planning process.

The Plan Commission consists of the following seven volunteers: Tim Andrews, Lorraine Gardner, Steve Greb, Dean Hein, Jim Molloy, Bob Uphoff, and Vicki Wangerin. Occasionally a vacancy occurs on the Commission. If you are interested in serving your Town as an uncompensated member of this Commission, please indicate your interest to Roz Gausman, Town Clerk.

Our 7:00 PM meetings are held the second Monday of each month. Everyone is welcome to attend.

Commission.

To assist the Town Plan Commission and staff in preparing the new comprehensive plan, the Town has hired Schreiber/Anderson Associates a local planning consulting firm. Look for updates on the Town's comprehensive planning process on our website

www.town.dunn.wi.us

Town Embarks on Planning Process

By Laura Stauffer, Land Use Intern

The Town received a comprehensive planning grant from Dane County to assist in creating a comprehensive plan for the Town. While the Town currently has a Land Use Plan, its scope is considerably narrower than that of the new comprehensive plan requirements. Over the next couple years, the Town will engage in the comprehensive planning process to meet the requirements of the State of Wisconsin's Comprehensive Planning Law.

To ensure that the plan is a reflection of Town residents' ideas and vision, the Town Board passed Public Participation Procedures that govern the planning process. The Procedures are posted on the town's webpage www.town.dunn.wi.us and detail how the town's website and newsletter will be used to publicize the planning process and provide information updates. Focus groups, a community survey, and community vision workshop will be used to get in-depth input

2003 Budget Highlights

By Rosalind Gausman, Clerk/Treasurer

This is the first year of the reductions in State Shared Taxes to municipalities as the state works to offset their 3.2 billion-dollar deficit. We will receive \$40,033 less revenue in the category of state shared revenue. That loss represents 8 cents of our equalized mill rate of \$2.19 or twelve cents of our assessment mill rate of \$3.11.

The 2003 budget includes three fund accounts with a tax levy, the General Fund, the Debt Service Fund, and the PDR Fund. The mill rate for the total levy on all three funds is \$3.11 per thousand of assessed valuation. The equalized mill rate is \$2.19 or \$219.00 tax for a \$100,000 property value.

On the revenue side of the budget sheet, the following lines are worth noting. Under the General Fund - General Property Tax levy is proposed to increase \$53,300 to offset the revenue shortage and the 2 % cost of living increase in some expenditure lines. Omitted property taxes of \$6,055 are a result of assessor errors that were not discovered until the tax bills were printed. The county bridge aid is a matching fund program for replacing existing culverts. The reduction in bridge aid reflects the reduction in culvert replacement on the expense side of the budget. We are estimating that income from driveway permits and land divisions will slow down in 2004 because we have seen a slow down in building permits recently. Again this year interest revenue came in below the budgeted amount as a result of the severe drop in interest rates. Therefore we are anticipating less in 2004 as well. Revenue from citations written by the contracted

sheriff service is increasing so we project an additional \$7,000 in ticket revenue. Dog license fees will increase \$4.00 to \$8.00 per dog depending on the gender. That fee increase should result in additional \$2,300 on the revenue side. The rental of highway equipment to other municipalities will generate close to \$11,000 in 2004.

On the expense side of the budget sheet, the following changes are proposed in 2004: Wage categories were increased 2% for 2004. (Note: the cost of living index went up 2.1%) Benefit costs are up do to an increase in health insurance premiums. Actual expenditures for attorney fees are down, so that line was decreased for 2004. Office supplies and expenses are proposed to decrease by \$6,400. Office equipment reductions reflect the replacement of only one computer. Election expenses will be slightly higher in 2004 because it is a presidential election year with a presidential preference in February. Town hall expenses are up to cover an increase in the cost of natural gas and utilities. Property and workers comp insurance is expected to increase in 2004.

The public safety portion of the budget is one we have little control over. We contract for fire and emergency services from McFarland, Oregon and Stoughton. The service we purchase from Stoughton is projected to go up a minimum of \$6,700. Oregon and McFarland net costs are down because they are increasing their charge for services. Street repair and maintenance (sealcoating) is lower to allow for increased road reconstruction listed in the capital improvement budget.

The Town Welcomes Intern Laura Stauffer

A Note from Laura:

In June of this year, I started as the Town's Land Use Intern. I am currently working on my master's degree in Urban and Regional Planning at UW-Madison, and will be graduating this coming May. My time at the Town Hall is spent working on the Town's comprehensive planning process, attending Plan Commission meetings, and assisting with the purchase of development rights program. I have learned a tremendous amount already and look forward to the months ahead.

Roads planned for resurfacing in 2004 include all the roads in Waubesa Heights, Princess Court, and Vic Anderson Road. Roads to be ressealed include Willow Court, Crescent Drive, the town parking lots and the town-owned roads in Bay View Heights.

Snow and ice control cost should be down in 2004 because the town will start using a sand and salt mixture instead of all salt and there was a surplus of salt left from last year's mild winter. Mixing sand and salt will save salt and be more environmentally friendly, but it will result in dirtier roads. Sign expenses are back down to normal with the completion of the rural number project.

Waste Management will continue to provide curbside garbage and recycling service with only the contracted 4.5% increase.

There is only a 2% increased

proposed for donations to the senior citizen programs and youth centers to reflect the change in cost of living expense. Park expenses are also similar to last year with the exception of wages which are down to reflect a reduction in hours by one employee.

Plan Commission expenses are also similar to last year. The Smart Growth Plan expenses over the next four years will be offset by a grant and the use of in-kind expenses for about one half of our share of the match.

No new storm water projects are planned for 2004.

We have an accrual-based budget. Therefore beginning balances were adjusted to reflect the year the revenue or expense covered, instead of the date of the receipt or check. The ending year balances will be adjusted to reflect the same.

IS YOUR VEHICLE REGISTERED IN THE TOWN OF DUNN?

DOES YOUR INCOME TAX FORM IDENTIFY DUNN AS YOUR RESIDENCE?

These questions are important in the calculation of the town's share of state aid revenue. The Wisconsin vehicle registration form you fill in and send with a check to FEE REGISTRATION every year, includes a box to fill in to indicate which **municipality** your vehicle is kept in. It is important to write TOWN OF DUNN in that box, as opposed to McFarland, Oregon, Stoughton or Madison which is your *post office* address. State shared aid is distributed to municipalities based on a formula which uses a per capita figure derived in part from vehicle registration forms and state income tax forms. If you are not writing in TOWN OF DUNN, those other municipalities are getting part of the state revenues that should come to the town.

Please make a special effort every year to indicate the TOWN OF DUNN when ever a question refers to your **municipality**.

Purchase of Development Rights Continued from page 2

buying development rights with a landowner, the Commission must decide if it will accept an appraisal: does the value seem high, low, consistent with others; are the comparable properties appropriate, etc. We have also begun a yearly reporting process on grant activity, completed PDR transactions and easement monitoring (going out to the property and verifying that the landowner is complying with the conditions listed in the conservation easement).

The Commission also completed a Memorandum of Understanding with the Natural Heritage Land Trust that outlines our relationship with them along with our mutual responsibilities. The Natural Heritage Land Trust is a co-holder of the easements that are placed on each piece of land whose development rights the Town purchases.

We have been doing some strategic planning, as well. As we continue to increase the amount of preserved farms and open space, the Commission periodically reviews our vision and goals for the program to determine if they still meet current needs. For instance, we look at where development pressure is coming from and decide if we should focus our efforts on purchasing development rights on properties that are close to the areas being developed. We have been very aware of McFarland's interest in some of the land on the village's southern border.

The Town of Dunn has a nationally known PDR program. Our Commissioners are enthusiastic and eager to continue its success. I am proud to be a part of such a wonderful concept and really enjoy helping to make it work.

Parks and Grounds News

Jay Hoel, Public Works Superintendent

Matching Funds

Residents are reminded that certain parks in the Town of Dunn have funds available for park improvements. Contact the Parks Commission or Mary at 255-4219 ext. 1 if you would like to request an improvement to your neighborhood park. Matching funds are also available on a first come first serve basis. Up to \$1500 is allowed per request, but each request must be matched dollar for dollar by neighborhood groups or associations.

Parade of Prairies

The town is also looking for volunteers for the Parade of Prairies this coming summer. All prairie enthusiasts are encouraged to get involved in this wonderful event. Tours are planned for local prairies established by town residents.

No Snowmobiles/ATV's/etc.

Residents are reminded that there are **NO** snowmobiles, ATV's, etc.

On the Road Again . . .

Todd Klahn, Public Works Foreman

Roadside mowing is three quarters finished for this year. The fall is the one time each year that we mow back to the edge of the right of way to remove woody growth and reduce snow drifting on roads. We are ready for winter with a full shed of salt. For snow and ice control we will be using a salt/sand mixture to reduce total salt usage and overall winter maintenance costs.

In 2003 we reconstructed Dyreson Road from the bridge to Hwy AB.

We were able to water, roll and shape the gravel ourselves saving the town roughly \$13,000. We also resurfaced Spartan Hills subdivision and Keenan Road after experiencing many scheduling delays by the contractor. We appreciate your patience while enduring the inconveniences caused by the delayed schedule.

Roads planned for resurfacing in 2004 include all the roads in Waubesa

allowed in town parks.

People using these recreational vehicles **MUST** stay on designated trails or be subject to a fine.

Garbage

Please keep your town parks looking nice and clean up after yourself before you leave. Remember, these are parks, not garbage cans!

Dog Waste

Please be a responsible pet owner and clean up your dog's waste. Other people walk in the same places you do, and they don't want to step in something stinky when they are trying to enjoy a nice walk in a park, on a trail, or even along the roadside.

Thank You for enjoying and respecting the town parks. Have a wonderful fall.

Winterizing our Homes

Denis Dennis,
Building Inspector

For safety reasons residents should check a number of things before winter:

- There should be fresh batteries in the smoke detectors.
- The carbon monoxide alarms should be in working order.
- All exit doors need to be clear of storage, debris, or furniture.
- Chimneys and fireplaces should be checked to make sure they are not plugged.
- There should be a cleared separate exit from the garage to the outside in case of a power outage and the overhead door can not be opened.
- Change furnace filters regularly
- Clean drier vents to prevent build-up

Estimated Ending Fund Balances for 2003

Parkland Dedication Ending Fund Balance	17,496
Waubesa Heights Park Ending Fund Balance	1,424
Dunn Heritage Park Ending Fund Balance	22,825
Bike Path Ending Fund Balance	8,216
Orvold Park Ending Fund Balance	4,767
Rock Elm Park Ending Fund Balance	3,439

Vacancies on Town Commissions

Parks Commission
Building Board of Review
Sanitary District #4
(Meadowview residents only)

Interested parties should complete an application at the Town Hall. For more information about the vacancies contact Roz Gausman, Clerk-Treasurer at 255-4219 ext. 6.

Stop Junk Mail before it becomes trash

Send your name and address, or any variation that junk mailers have of your name and address, and a request to be dropped from mail lists to: Direct Marketing Association, Mail Preferences Service, PO Box 9008, Farmingdale, NY 11735-9008.

The Town of Dunn website provides updates on current issues, Town Board, Parks, Plan and Land Trust Commission meeting schedules and agendas. There is also information on the Purchase of Development Rights Program, a copy of the town's Land Use Plan, transfer site hours, maps and lots more.

2004 Dog License Fee Increase

The new price for a dog license is increasing to \$10.00 for a neutered dog and \$20.00 for an un-neutered dog. The fee has not changed for more than ten years. This increase is more in line with what other communities are charging. Kennel (multi-dog license) is increasing to \$100.00. The \$100.00 fee for a kennel license includes up to 12 dogs, with additional dogs at \$10.00 each. The fees collected for dog licenses are shared with the county and state. The state gets \$3.00 for each neutered dog, \$8.00 for un-neutered and \$35.00 for each kennel license. The county gets twenty-five cents for each dog regardless of the gender. We issued 558 licenses in 2003. A list of the dog licenses issued is on our web site. Please help us identify those residents with dogs who are not on the list. Failure to license a dog over 6-months old is a fine of \$50.00. The deadline for dog licenses is March 31. A late penalty of \$5.00 is charged after March 31.

What's New at the Waubesa Beach Neighborhood Association

Roxanne K. Gray, Association Secretary

The WBNA held its biggest event of the year, the annual picnic on August 2nd. Even a few sprinkles couldn't dampen the spirits. Floyd and the Void provided this year's entertainment. Russ Brown and Glen Jakusz won this year's horseshoe tournament. The raffle was won by the following: 4th Prize - six-piece patio set - Robert Holtshople, 3rd prize Senco Air Brad Nailier - Floyd (from Floyd and the Void), 2nd Prize Sony Mini Stereo System - Bernard Moy, 1st prize 12 Volt DeWalt Drill - Lynn Johnson, and the grand prize \$500 cash was won by Jayne Wick. Congratulations to all the winners! If you couldn't make this year's picnic, we hope that you can attend next year's picnic scheduled for August 1st.

member or e-mail the association (address below.)

The next planned event will be the First Annual Packer Chili Cook Off and Food Drive scheduled for Sunday, December 14th at the Waubesa Beach Community Center located at 4373 Third Street across from Christy's Landing. For those that want to enter their favorite chili into the cook off, the entry fee is \$10. A maximum of 12 entries will be accepted and there will be a full cash payout. Contact Jeff Hodgson at 224-0203 if you are interested in entering the cook off or need additional information. For anyone wishing to attend, the cost is \$4 adults and \$2 for children (11 and under). This includes tasting and judging the chili entries and a bowl of Jeff's friendly "house" chili, bread, crackers, cheese, onions and sour cream, milk and/or soda. Awards for the best chili will be at half time. You can start tasting the entries beginning at 1:30. The best part will be watching the Packers beat San Diego. The game starts at 3:15 p.m. Food drive donations will be collected at the door. Everyone is welcome to attend. Mark your calendars! This should be a very

fun event.

The Association lost one of its board directors recently. Cheryl McCarthy passed away on October 8 in Ohio while traveling. The Association will miss her. Our thoughts and prayers go out to her family.

The WBNA annual membership is due in January 2004. This year's membership per household will be \$20. Dues help pay for the property taxes, utilities, and improvements at the Community Center. Third Street and other activities. The WBNA mission is "to provide a common facility for persons of all ages in the neighborhood to gather for information, education, recreation and amusement as well as to promote the activities for the good of the neighborhood and the community." If you are interested in joining the WBNA, you can contact any Board Member (Beth Walls, Clint Christenson, Karyn Lord, Roxanne Gray, Jeff Hodgson, Martha Ripp, Wendy Smith or Joan McNamee) for a membership form or e-mail to:

www.WaubesaBeach@aol.com

The annual meeting and election of officers is held the first Thursday in April. This year's meeting will be April 2, 2004, at 7 p.m.

Town of Dunn Transfer Site

4030 County Road B 1/4 mile east of the Dunn Town Hall

Open the 1st and 3rd Saturdays of every month from 8 AM to 4 PM.

- Scrap Metal
 - Motor Oil
 - Yard Waste
 - Brush and Wood
 - Batteries
 - Tires
- Scrap metal - Scrap iron, steel, copper, and other metals are accepted. We don't accept compressors or motors.
- Motor oil - Used motor oil that is free of other liquids such as antifreeze is accepted. Either reuse your used motor oil container or dispose of it in the trash. Don't leave oil containers near the used oil tank.
- Leaves and grass clippings - Put any compostable material in the compost pile at the Transfer Site, or

compost them yourself at home.

Brush and Wood - We take brush and limbs that are free of soil. We cannot take stumps or painted lumber. Dane County's landfill will take tree stumps.

Tires - We charge \$3 for auto tires \$4 for tires with rims. Tires (rims removed) can be taken to the Dane County Landfill for a small fee.

Questions? Call the Town Hall at 255-4219

TOWN HOLIDAY TREE

Residents who wish to donate an ornament with a patriotic theme for the Town Holiday Tree may do so by dropping off the ornament anytime before December 31. Residents are encouraged to label the ornament with their name and the year.

Tree Disposal

Waste Management will not pick up trees left at the curbside. Naked trees — trees without tinsel, decorations, or stands — can be taken to the town Transfer Center on County Road B for disposal. The Transfer Center is open the 1st and 3rd Saturday of the month from 8 AM to 4 PM. There is no disposal charge.

Law Enforcement

Mary Gross, Court Clerk

The town contracts with the Dane County Sheriff's Department for law enforcement services. Some reminders from our deputies are:

- Deer are on the move. Drive carefully and watch the roadsides.
 - Stop signs require a complete stop. We have recently had more violations involving failure to come to a complete stop.
 - Vehicles parked in road right-of-way must have all tires completely off the pavement. To facilitate snowplowing, please do not park in the road right of way overnight.
 - Dogs are not allowed to run at large.
 - Licensed vehicles are not allowed to be stored within public view for a period longer than 14 days unless it is in a properly zoned business district.
 - It is unlawful for any person to store or permit the storage of junk or waste in a place open to the public view for a period longer than 14 days.
 - Open burning of construction material, garbage, trash or materials that are not readily combustible is prohibited.
- All these ordinances are complaint driven.

If an incident occurs that you think is unlawful, please contact the town (255-4219 ex 1) or the Dane County Sheriff's office (266-9122 or 255-2345) as soon as possible after the incident occurs.

RECYCLING GUIDE

The small efforts we make each day to REDUCE, RE-USE, AND RECYCLE benefit our community and our environment for years to come. State law requires residents to recycle. This guide is designed to help you determine what to recycle, where to dispose of unusual items, and who to call if you have a question.

CURBSIDE RECYCLING

Curbside pick-up of recyclables is unlimited amounts.

Plastics - Numbers 1, 2, 3, 4, 5, 6, and 7 plastics are recyclable! Rinse and remove caps and rings; labels can remain. Flatten as much as possible. Bottles that have contained motor oil, medicine or chemicals cannot be accepted for recycling. All #2 plastic one and five gallon buckets can not be recycled.

Aluminum - only aluminum cans are accepted for recycling. Rinsing is encouraged. Don't include any other kinds of aluminum such as foil or aluminum pie plates in the recycling bin.

Tin Cans - Food cans only - no paint or chemical cans. Rinse, remove labels, and flatten. Put sharp lids in the trash. Aerosol Cans - can be recycled! Make sure they are empty and remove plastic nozzles.

Glass - Jars and bottles can be recycled. Always rinse and remove the lid. Labels can remain on the container. Light bulbs, dishes, drinking glasses, mirrors and window glass can be recycled elsewhere or disposed of as trash.

Newspaper - Newsprint must be dry and bundled. Shiny inserts are acceptable. Place in brown paper bags. Do not mix with other types of paper.

Magazines - Tie with string in 6 inch stacks. Do not mix with other types of paper.

Telephone books - From the second week of January through the end of February phone books are recycled. Any other time they must be placed in the trash.

Mixed Paper - Junk mail, office paper, soft drink/beer cartons can be recycled. Place in brown paper bag. Do not mix with newspapers or magazines.

Cardboard - Corrugated cardboard can be recycled. Flatten boxes and keep dry. Cut pieces into less than 3 foot squares and bundle with string or place in a grocery bag. Pizza boxes, egg containers and wax-coated boxes cannot be recycled.

Note: If it is raining or the forecast indicates rain is likely on pick-up day, please withhold cardboard, newspaper and other paper recyclables for the next pick-up. Wet paper cannot be recycled and ends up in our landfill.

Large Items, Hazardous Items and Miscellaneous

Appliances, furniture and large items: Appliance pick up or drop off is available from Gary's Appliances, 2405 Vondron Rd. Call 221-1150 for more information. Most large items and appliances can be picked up by Waste Management, although you must call ahead and there may be a \$25.00 fee. For more information call (608) 273-2500.

Remodeling Debris: Waste Management can provide a dumpster. Please call (608) 273-2500 for pricing. You may be able to drop off construction materials at Madison Prairie Landfill, 3490 Nelson Rd. Please call ahead 837-9031.

Fluorescent Light Bulbs: Recycled through Waste Management. Call to arrange pick up 800-236-1028.

Thermostats: Due to health problems associated with mercury, old thermostats and thermometers should be recycled through Dane County Clean Sweep, Madison Gas and Electric, First Supply Madison, Gustave A. Larson Co. or Warren Heating and Air Conditioning. For more information call John Reindl, Dane County Recycling Manager at 267-8815.

Medical Waste: Waste Management will pick up medical waste that is properly labeled and sealed. Sharp objects such as needles, syringes, or lancets should be placed in a hard plastic or metal container that is puncture resistant and labeled "SHARPS". An empty laundry detergent jug or a red medical sharps container work well. Never use recyclable aluminum cans, glass or clear plastic jugs to dispose of sharps. Containers may then be placed next to your trash for pick up by Waste Management on regular trash pick up days.

Hazardous Materials: Paint, pesticides, poisons, solvents, ignitables, aerosols, sealants, fuel, oil and other hazardous materials must not end up in our landfill. Dispose of these items at Dane County's Clean Sweep Hours: Tuesday, Wednesday, Friday, Saturday 7:30 AM to 2:00PM, May 1 through October 26. For more information on Clean Sweep see Dane County's Webpage at: <http://www.co.dane.wi.us> and then click on recycling. For other possible drop off sites call the Wisconsin DNR at 275-3208.

Computers: Computers contain hazardous materials and should be recycled. Janssen Computers, 4325 Bellline Hwy, 274-1007 will take equipment for reuse or recycle. Cascade Asset Management also provides some recycling. Call 222-4800 for more information. Dane County's website lists many other options for computer disposal. Visit the Dane County website at www.co.dane.wi.us/pubworks/recyc.htm

HOW TO GET MORE INFORMATION:

Town of Dunn: Call 255-4219 ext 1, or visit website www.town.dunn.wi.us

Waste Management: Call 257-2500 for questions related to curbside pick up and dumpster rental.

Dane County For more information about Clean Sweep, Dane County Landfills or recycling resources visit www.co.dane.wi.us/pubworks/recyc.htm or call the Dane County Recycling Manager at 267-8815.

A Note From Waste Management

Currently your community is allotted one 34 gallon container for solid waste and an unlimited volume of recyclables. This will not change in 2004. Waste Management has provided two additional levels of service for residents that generate larger amounts of solid waste. An additional 64 gallons of solid waste can be picked up at a cost of \$4 per month and the resident will be provided with a 64-gallon toter. An additional 96 gallons of solid waste can be picked up at a cost of \$5.40 per month and the resident will be provided with a 96-gallon toter. This cost is in addition to your base contract costs and will be billed directly to the resident. Residents using the 64 or 96 gallon toters are also entitled to leave one 34 gallon bag for pick up in addition to the toter. The toters are instead of stickers and identify you as having extra service.

Items that are too big to fit into a 32 gallon receptacle such as mattresses, chairs, couches, etc. can be scheduled for pick up by calling (608) 273-2500. There is a cost of \$25.00 per item. These items are not picked up the same day as your regular service. Appliances such as washers, dryers, refrigerators, etc. can also be scheduled for pickup at the cost of \$25.00 per item by calling (608) 273-2500. Waste Management can also help you with your remodeling needs or cleanup. Please call (608) 273-2500 on the cost of renting a dumpster.

For additional information on special material recycling or drop-off centers go to Dane County's Public Works Department website at : www.co.dane.wi.us/pubworks

Cleaning House for the Holidays ?

The next Goodwill Industries pick up is scheduled for: **Saturday, December 6th from 9 AM to 12 PM** in the Town Hall parking lot.

Goodwill will provide the staff to help unload, give receipts and provide tax information.

The town will only accept donations during the scheduled drop-off dates/times.
