

Town of Dunn Fence Policy

Fences must be placed only on your own property and outside of the road right-of-way area, typically 33 feet from the center of the town road.

Invisible and pet fencing needs to be installed on the owner's property and cannot extend into the road right of way."

If there are easements on the property, please check with the easement holder to see if a fence would be allowed.

If there is a platted drainageway, fences are not allowed in these locations.

Please check with Dane County Zoning as they DO regulate fencing within special zoning districts. As this a Dane County Zoning regulation, please contact Dane County Zoning at (608) 266-4266.
