

The Official TOWN OF DUNN NEWSLETTER Fall 2004

SMART GROWTH PLANNING CONTINUES

By Michelle Stahlhut, Land Use Intern

Town of Dunn is continuing with its state-mandated comprehensive planning process (Smart Growth), partially funded by a planning grant from Dane County. When it is finished, the Town of Dunn Smart Growth plan will help guide our community in making decisions about our future.

To ensure that the plan reflects the ideas and vision of residents, the town has collected information through focus groups and a survey, and presented the results at a visioning workshop in April.

We had 804 responses to the land use survey, which represents 38% of the residents of Dunn. Of these respondents, an overwhelming 93% are aware of Dunn's current land use policies. The two most important land use issues identified were Protection of Water resources (29.9%), and Preservation of rural character (19.9%). In fact, 94.3% (740) agreed that natural resource protection should continue to be a high priority for the town in the future, and 85.6% (671) agreed that the town should continue to support farmland preservation. In addition, 73% support the purchase of development rights program that has been a tool used to preserve these characteristics of Dunn.

The smart growth committee is currently working on incorporating these results into a draft of the comprehensive planning document. Once a draft is completed, there will be an open house and review of written comments to obtain more feedback and input from the community.

To see more results of the survey and keep up to date on the Smart Growth process, take a look under "Smart Growth Planning" at the Town of Dunn website:

<http://town.dunn.wi.us>

Views From the Town Chair

Edmond P. Minihan, Dunn Town Chair

We are now in a world where energy/resources are increasingly expensive. The reliability of fuel supplies can no longer be assumed. As a result of these developments, much thought has gone into what can be done by the Town to address these issues. The most direct response to the cost and local production of electricity is that of wind power. There are some opportunities we are exploring for establishing a wind generator at our transfer site. There are a number of hurdles we have to leap before we have a viable proposal for our citizens to review.

This discussion is to give everyone an idea of what is being considered by your Town Board. As usual, if the ideas are feasible, there will be full citizen input and Annual Meeting approval. Hopefully we will have something for your review next year. There are grants to help pay for wind power if the site is appropriate. We are working on the viability of the transfer site as a place to put a wind turbine. We also hope to partner with one of the energy companies to assist in determining whether it is economically sound. We have some Town residents with skills in this area and we encourage people with expertise and/or an interest in wind power to contact the Town Hall and let your interest be known and we will form a citizen committee to study the feasibility of this proposal.

**TOWN OF DUNN
SPECIAL TOWN MEETING
Tuesday November 23, 2004 7:00 PM
Dunn Town Hall - 4156 County Road B**

NOTICE OF SPECIAL TOWN MEETING OF THE ELECTORS OF THE TOWN OF DUNN, DANE COUNTY

Notice is hereby given of a Special Town Meeting called pursuant to Wis Stats.

60.12(1)(c), by the Town Board of the Town of Dunn, on November 23, 2004 immediately following the budget hearing at 7:00 PM at the Dunn Town Hall at 4156 County Road B, McFarland. The purpose of the meeting is:

1. To approve the minutes of the Annual Town Meeting of April 13, 2004.
2. To approve the highway expenditures pursuant to Section 81.01(3) of the Wisconsin Statutes.
3. To approve the town tax levies for the general fund, debt service fund and rural preservation fund for the year 2004 (to fund the 2005 operating budgets).
4. To set the salaries for elected officials for the two-year term beginning in April 2005.

Town Meetings are the forums at which major issues and town policy are decided. The residents of the town are the decision makers. Every resident of legal voting age present casts a vote.

Agendas and announcements for all special meetings are posted at the following locations: the bulletin board outside the Town Hall, 4156 County Road B; the message board on the corner of Waubesa Ave. and Third Street; and Quick Stop, 1888 Barber Drive.

Rosalind Gausman, Town Clerk/Treasurer

GOING BATTY ON ARBOR DAY

By Sue Richards, Parks Commissioner

It was an evening of friendship, fun and bat-facts! The 2004 Annual Arbor Day Celebration Pot Luck Dinner is just one more reason our little Town of Dunn is such a GRAND place to live. On a balmy Saturday evening, the first of May, over fifty residents gather at the town hall to enjoy a luscious pot-luck dinner organized by the Parks Commission.

Dan Zarnstorff, who recently stepped down from many years of service including chairing the Parks Commission, was presented with the coveted Stewardship Award. The plaque, created by Dunn resident and artist Nancy Hagen, was well received.

This year's guest speaker was Ken Bowman. Mr. Bowman is an active member of the "Bat Conservation of Wisconsin", also known as "BAT COW". Mr. Bowman brought not only preserved specimens of the bats of Wisconsin, but also several LIVE examples of little brown bats, the most common species in this area.

His entertaining presentation described the fascinating and complex behavior of bats. He

emphasized their many beneficial aspects. We learned that bats live for many years, take attentive care of their young and are far from the misconception that they are "flying rats", as many misinformed folks might think.

He used a hand held amplifier to allow the audience to hear the usually inaudible squeaks and clicks of the bat's echolocation and communication. "We could hear the clicking sound that the bats made when Mr. Bowman took them out of his pouch," remarked Mr. Freddie Richards, age 4 and lifelong resident of Dunn. The evening closed with a drawing for some really cool prizes donated by Tom Shepherd owner of Ace Hardware and town of Dunn resident.

The Parks Commission hopes that you will plan on attending this annual early spring event. Plans are in the making for the Arbor Day Pot-Luck in April/May of 2005. Please check the Town's spring newsletter for all of the details.

Status of Property Revaluation

by Rosalind Gausman, Clerk Treasurer

The revaluation of real estate property in the town began in 2004. The Gardiner Appraisal Service is doing the job. They have several employees working for them with one to four working on town projects at any time. They are visiting and measuring the residential properties first, then doing the commercial and agriculture properties. They started with section one in the north east corner of the town and are moving section by section to the south until they complete the entire town. When they stop at a residence they leave a card to say they have been there. If you are not home when they stop by, you will receive a post card with an appointment date and time when they will return. If you are unable to keep that appointment, it is important to call Gardiner as soon as possible to let them know. The phone number is 838-3993. When the entire town has been reassessed, each property owner will be mailed a notice of the new valuation with the date and time for an open book session to meet with the assessors if you have questions. That will not happen until sometime in mid 2005. Next spring we will have a better idea of an estimated date for completion. See the Questions and Answers on the process of revaluation below.

Questions and Answers:

Q - Why is revaluation necessary?
Wisconsin law requires municipalities to assess property within 10% of market value within each four-year period. In 2005 our assessment will be below 90% for the fourth year.

Q - How does the assessor go about placing a "fair market value" on my property?
Finding the market value of property involves reviewing what similar properties are selling for, what the property would cost today to replace and what financial factors, such as interest rates, may be affecting the real estate market. Valuation techniques for commercial properties also include analysis from an investment point of view. The assessors do not create value. Rather, they have the legal responsibility to discover and report the changes that are occurring in the market place.

Q - How can my assessment go up when my property hasn't changed?
Since the new assessments will be set at market value, rising real estate values in the town will be reflected in generally higher assessments. All

properties, however, do no change in value to exactly the same degree. Many factors influence the value of property, including location, age, size and style.

Q - Will my home be inspected?
An experienced appraiser hired by the town will make a personal visit to your property. The appraiser will need to walk through the interior of your home and also walk around the exterior.

The appraiser will be carrying identification and a letter of introduction from the Town of Dunn. If you refuse to let the assessor view your property you lose the right to appeal the value placed on the property by the assessor.

Q - How will I know what my new assessment is?

All property owners will receive a notice of assessment change by mail in 2005 when the revaluation of the whole town is finished.

Watch for articles in future newsletters about the dates and procedures for viewing the assessment records and appealing assessment values. If you have questions you may contact the Deputy Clerk, Cathy Hasslinger at 255-4219 Ext. 3.

Views from the Town Chair

(continued from page 1)

A proposal that is very new is the production of diesel fuel from vegetable oil-specifically, used fry oil. This is a much more complex undertaking and a great deal of work needs to be done before there is enough information to decide if it is worth looking at seriously. There are people in Dane County who have been producing high quality diesel fuel from vegetable oil that had a former life cooking up the Friday fish fry. Again, if anyone is interested in exploring this possibility, let us know.

We are working on involving area high school students in these proposals to give them some practical application of the things they are learning in school. If your daughter or son has an interest in these kinds of sustainable energy production, let us know. We can work with their school to coordinate the learning experience.

These are some of the ideas we are pursuing. New ideas come from residents, Town employees and elected officials alike. We are always open to new ideas to take on the challenges of a changing world.

Plan Commission Update

By Jim Molloy,
Plan Commission Chair

The Plan Commission advises the Town Board regarding land division requests, zoning changes, site plans, driveway placements, commenting on various Dane County land use issues, and updating the Town's Land Use Plan, policies and ordinances. Individuals who wish to come before the Plan Commission, should contact Renée Lauber, the Town's Land Use Manager. She will include you on our next agenda and provide you with the administrative details associated with appearing before us.

We are also currently working on the Wisconsin Comprehensive Plan (also known as "Smart Growth") initiative, as we will be responsible for preparing the comprehensive planning

document required by this law. As many of you know, this legislation represents an effort by the State of Wisconsin to encourage sound land use planning and attempts to curb urban sprawl and promote better land use. Other articles in this newsletter explain the Smart Growth law and where we are in the planning process.

The Plan Commission consists of the following seven volunteers: Tim Andrews, Lorraine Gardner, Steve Greb, Dean Hein, Jim Molloy, Bob Uphoff, and Vicki Wangerin. Occasionally a vacancy occurs on the Commission.

Our 7:00 PM meetings are held the second Monday of each month. Everyone is welcome to attend.

Year 2005 Budget Highlights

By Rosalind Gausman, Clerk/Treasurer

The 2005 budget includes three fund accounts with a tax levy, the General Fund (town operations), the Debt Service Fund (for funding capital projects or equipment), and the PDR Fund (to operate the Purchase of Development Rights Program). The mill rate for the total levy on all three funds is \$3.37 per thousand of assessed valuation. The equalized mill rate is \$2.19 or \$219.00 tax for a \$100,000 property value.

On the revenue side of the budget sheet, the following lines are worth noting. The general property tax levy is proposed to increase \$60,000. Of that amount \$50,000 will be set aside in a sinking fund to be used for our share of the purchase of fire equipment for the three districts with which we contract fire protection service. The State shared revenue is about the same as last year. I think the election of state representatives postponed the big reductions that we were warned about last year. The increase in bridge aid reflects the increase in culvert replacement planned for next year. Revenue from citations written by the contracted sheriff service is increasing each year. Our deputies are doing an excellent job catching drivers with a heavy foot.

On the expense side of the budget sheet, the following changes are proposed in 2005:

Wage categories were increased 2% for 2005. Attorney fees were increased by \$5,000 to cover legal fees to protect our town against decisions by neighboring cities and villages that have a negative impact on us. Workers compensation insurance cost is down to reflect a rebate. Election expenses will be slightly higher in 2005 to cover software costs for the new statewide voter registration system that will be in place by 2006. Office equipment was increased to cover a new computer and an upgrade for our phone system. The public safety portion of the budget is one we have little control over. We contract for fire and emergency services from McFarland, Oregon and Stoughton. The service we purchase from Stoughton is projected to go up when they project to a full time fire chief.

In 2004, 53% of the tax levy paid for Fire/EMS and police protection contracted from other communities

We had to borrow another \$60,000 for Stoughton's new fire truck. More equipment purchases by all three districts are anticipated and costs will be passed on to the town.

Proposed 2005 Tax Levy	\$670,000
Fire and EMS protection	\$316,454
Police protection	\$54,267

Of the total 2005 tax levy, 55% pays for contracted Fire/EMS and police protection. The remaining 45% of the levy funds all other town services and operations.

McFarland net costs are down because they are increasing their charge for services for EMS and they paid off a loan for an ambulance. The decrease in the Oregon Fire/EMS budget is the result of increased revenues for EMS calls and decreases in most of the operating expense accounts.

In the Public Works budget, street repair and maintenance (sealcoating) is up \$20,000 to seal the new construction from last year and cover the increased cost in oil. Garage expense

includes a new roof on the old highway garage and anticipated increase in heating fuel.

Waste Management will continue to provide curbside garbage and recycling service with only the contracted 4.5% increase.

There is only a 2% increased proposed for donations to the senior citizen programs and youth centers to reflect the change in cost of living expense. Park expenses include a new mower.

Plan Commission expenses are also similar to last year. The Smart Growth Plan expenses over the next two years will be offset by a grant and the use of in-kind expenses for about one half of our share of the match. No new storm water projects are planned for 2005.

We have an accrual-based budget. Therefore beginning balances were adjusted to reflect the year the revenue or expense covered, instead of the date of the receipt or check. The ending year balances will be adjusted to reflect the same.

Dunn Voters Not Left Waiting on Election Day 2004

Voter turnout was an unprecedented 82.5% of the estimated eligible voting population for the Town of Dunn. A long line at the opening of the polls reached out into the parking lot. Voters in line at the opening of the polls reported that the wait was about 20 minutes to reach one of the five poll list tables. For the remainder of the day voters rarely waited more than 5 minutes to vote.

There were 3,407 votes cast which represents an 11% increase over the last Presidential election. Almost 20% of the voters chose to cast their ballot early by voting absentee prior to Election Day. This is well over three times the number who voted absentee in the previous Presidential election.

Sharing our Roadways

Our scenic roads and roadsides are often populated with pedestrians, bicyclists, horseback riders of all ages, and traffic of farm tractors and equipment. Motor vehicles should slow down when rounding corners and cresting hills until they can see what is beyond. Use caution when approaching or passing pedestrians and others.

- When passing horses on the road, please do not honk or make sudden noises; it may startle the horse.
- Allow extra room and slow down.
- When passing farm vehicles and equipment, keep a safe distance behind and allow plenty of time when passing.

For safety, motor vehicles must yield to pedestrians and equestrians!

Hunters Be Aware: Disposal of Deer Carcasses

is a Growing Concern

Hunters can dispose of deer carcasses and guts at the Dane County Landfill (838-9555) for a fee of \$9.00 or they can be buried. Leaving deer carcasses and gut piles in the road right-of-way is prohibited and violators can be cited and fined. Be considerate of others who use the road right-of-way for exercising dogs, walking, horseback riding, bicycling and scenic enjoyment. Residents are encouraged to report deer carcass violations and road kill to the DNR at 275-3266.

The Town Welcomes Intern Michelle Stahlhut

Michelle is pursuing her master's degree in Urban and Regional Planning at the UW Madison and has been serving the town by working on the Smart Growth comprehensive planning initiative.

LOST AND FOUND

A silver colored ring with a blue stone was found at the Town Hall on Election Day (November 2, 2004). The ring can be claimed at the Town Hall by identifying it.

Parks and Grounds News

Jay Hoel, Public Works Superintendent

Matching Funds

Residents are reminded that certain parks in the Town of Dunn have funds available for park improvements. Contact the Parks Commission or Mary at 255-4219 ext. 1 if you would like to request an improvement to your neighborhood park. Matching funds are also available on a first-come, first-served basis. Up to \$1500 is allowed per request, but each request must be matched dollar for dollar by neighborhood groups or associations.

No Snowmobiles/ATV's/etc.

Residents are reminded that there are **NO** snowmobiles, ATV's, etc. allowed in town parks. People using these recreational vehicles **MUST** stay on designated trails or be subject to a fine.

Garbage

Please keep your town parks looking nice and clean up after yourself before you leave. Remember, these are parks, not garbage cans!

Dog Waste

Please be a responsible pet owner and clean up your dog's waste. Other people walk in the same places you do, and they don't want to step in something stinky when they are trying to enjoy a nice walk in a park, on a trail, or even along the roadside.

Thank You for enjoying and respecting the town parks. Have a wonderful fall.

Susan Richards and 4 year old Freddie Richards of 2020 Hawkinson Road examined the bee hives that produced a bumper crop of honey this year. The family business Hidden Oaks Honey is in its second year and credits another community bee keeper, Dale Marsden, with sharing his expertise and helping them establish the hives.

On the Road Again

Todd Klahn, Highway Foreman

We have been busier than usual at the Town garage this fall. Roadside mowing is just getting started. This is the way-back mow to help reduce snow drifting on roads. We are ready for winter with a full shed of salt.

We resurfaced Waubesa Heights, Vic Anderson Road, and Shaw Court. We were able to water, roll and shape the gravel ourselves saving the town roughly \$20,000 over the cost of using an outside contractor. We seal coated the town hall parking lot, Bayview Heights, Morris Park, Crescent, Willow and a portion of Tower Road.

Using our Excavator we were able to replace nine culverts that were rusted out this year. We were able to recoup material costs and operating costs. The town's only expense was

the labor costs. In September we finished a drainage ditch in the Meadowview subdivision. We dug it out to grade and seeded it.

We still have one more ditch to clean out before the snow flies and we will be installing our snow equipment mid-November. Please do not park on the roads or on the shoulder when it snows for ease of snow removal. The state law states motorists need to be 300 feet behind a snowplow or a citation could be issued. Let's be courteous to our hard working town crewmen.

For snow and ice control we are planning to use a salt/sand mixture to reduce total salt usage and overall winter maintenance costs.

Our Thanks to the Toddle Inn

For their generous donation of a large Scarlet Maple Tree for town residents to enjoy for many years to come.

Estimated Ending Fund Balances for 2004

Parkland Dedication Ending Fund Balance	19,649
Waubesa Heights Park Ending Fund Balance	1,438
Dunn Heritage Park Ending Fund Balance	22,501
Bike Path Ending Fund Balance	10,353
Oryold Park Ending Fund Balance	4,814
Rock Elm Park Ending Fund Balance	3,473

Vacancies on Town Commissions

Mobile Home Commission

Residents of mobile home parks in the town are encouraged to apply to serve on this commission to address issues within our mobile home parks. Interested parties should complete an application at the Town Hall. For more information about the vacancies contact Roz Gausman, Clerk Treasurer at 255-4219 ext. 6.

COMPOSTING LEAVES WILL PROTECT OUR LAKES AND STREAMS

When the leaves blanket your yard this autumn, protect your lakes and streams by properly disposing of leaves.

"Most folks don't realize that leaves can be a nagging source of local water pollution," says Dane County Lakes and Watershed Commission Chair Brett Hulsey.

While they seem biodegradable and harmless, excess leaves pose a threat to Dane County's lake and stream water quality. Even if the leaves themselves don't move, rain seeping through leaf piles makes a rich "nutrient tea" that flows into lakes and streams. Stormwater drains directly into our lakes and streams, carrying leaves and other debris with it.

Once they get into the water and begin to decay, the leaves release nutrients that contribute to the accelerated growth of algae. The result is a greenish-tinted lake choked with foul smelling, dying algae that can kill fish and other aquatic critters and generally make water recreation an unpleasant experience.

- Consider these alternatives to raking:
 - Add leaves to a home compost pile to create a nutrient-rich fertilizer for your vegetable and flower gardens and other landscaping projects.
 - Composting leaves saves money, helps the environment.
 - Some people bag their leaves to use as insulation around their home's foundation to reduce heat loss during the winter. Then in spring, the leaves are used as mulch or are composted.
 - Till them into your garden.
 - If you have a mulching mower, you can chop the leaves into small particles that will decompose directly into your lawn. If you have a bagger on your mulching mower, you can the mulched leaves in flowerbeds around shrubs.

Don't burn leaves. Research shows burning leaves harms people with asthma and other respiratory problems. Burnir leaves also puts nutrients into the air, which can make their way to lakes and streams, adding to the pollution problem. Our waters. Ashes are also a source of highly concentrated nutrients. Runoff carry the ashes to the nearest pond, stream or lake. Burning leaves and trash causes over half of the wildfires in the state each year.

Town Email and WebPage Addresses

The Town of Dunn website provides updates on current issues, Town Board, Parks, Plan and Land Trust Commission meeting schedules and agendas. There is also information on the Purchase of Development Rights Program, a copy of the town's Land Use Plan, transfer site hours, maps and lots more.

Update on the Waubesa Beach Neighborhood Association

Aimee Bailey, Association Secretary

The WBNA held its annual picnic on Saturday, August 7th. The weather was perfect for some outdoor socializing with friends and neighbors. There were a variety of activities for everyone to enjoy. *Midlife Crisis* provided the entertainment with a wide array of music to please everyone's dancing feet. Neill Bailey and Bill Markham won first place in the horseshoe tournament and Russ Brown and Mark Walters won second place. There were games for the kids, as well as face painting and a visit from the Oregon Fire Department. The raffle was won by the following: Pete Norman- \$500, Barbara Daane-smoker grill, Randy Erickson- REI gift certificate, Sheree Vandebrink- wildlife print, Becky Murray- digital camera. Many other people won prizes by participating in the can raffles. Congratulations to all of the winners and thank you to all of the volunteers and sponsors who donated their time, energy, supplies, and prizes! This event would not be possible without the gifts of our community residents and area businesses. We hope that you will make it out next year for this family event!

The Second Annual Packer Chili Cook-Off and Food Drive will be held at the Waubesa Beach Neighborhood Center on Saturday, November

14th, 2004. Last year's winner was Pam Crossen, with Neill Bailey in

second place. Joe Lynch and the team of Todd Laylan and Charlie Fuller tied for third place. Please join us in judging this year's entries, while you watch the Packers take on the Minnesota Vikings from the bleachers. You can even sign up to enter your own recipe. The festivities will begin at noon and continue through the end of the Packer game. Chili will be served at 1:30, when judging will begin, and kick-off is at 3:15. Prizes for first, second, and third place chili will be awarded at half-time. In addition to the ten competing entries, we will be serving Jeff's House Chili with all of the fixings. Included in your meal is a soda or milk. Beer and additional soda will be available for purchase as well. Tickets for the tasting are \$4 for adults and \$2 for children under 12. We would also appreciate a donation of non-perishable food items for the Second Harvest Food Bank. If you would like to enter the contest, please contact Jeff Hodgson at 224-0203. The entry fee is \$12 with a completed registration form. The first ten entries will be accepted. Come down to the center on November 14th to warm your body and spirits at the Second Annual Packer Chili Cook-Off! There have been many

Cleaning House for the Holidays?

The next Goodwill Industries pick up is scheduled:

Saturday, December 4th
from 9 AM to 12 PM
in the Town Hall parking lot.

Goodwill will provide the staff to help unload, give receipts and provide tax information.

The town will only accept donations during the scheduled drop-off dates/times.

Law Enforcement

Mary Gross, Court Clerk

The town contracts with the Dane County Sheriff's Department for law enforcement services. Some reminders from our deputies are:

- Deer are on the move. Drive carefully and watch the roadsides.
- Vehicles parked in road right-of-way must have all tires completely off the pavement. To facilitate snowplowing, please do not park in the road right of way overnight.
- Dogs are not allowed to run at large.
- Unlicensed vehicles are not allowed to be stored within public view for a period longer than 14 days unless it is in a properly zoned business district.
- It is unlawful for any person to store or permit the storage of junk or waste in a place open to the public view for a period longer than 14 days.
- Open burning of construction material, garbage, trash or materials that are not readily combustible is prohibited.

All these ordinances are complaint driven.

If an incident occurs that you think is unlawful, please contact the town (255-4219 ex 1) or the Dane County Sheriff's office (266-9122 or 266-4948) as soon as possible after the incident occurs.

improvements to the community center this year. Additions to the outside of the center include a storage shed, a cement slab, and new picnic tables. We are in the process of installing carpet inside of the center, which will replace the current cement floor. These updates would not be possible without dues for annual memberships. The 2005 membership fee of \$20 is due on January 1st, 2005. These dues also help the center pay for property taxes, utilities, and various functions of the board. The WBNA mission is "to provide a common facility for persons of all ages in the neighborhood to gather information, education, recreation and amusement, as well as to promote the activities for the good of the neighborhood and the community." By joining the board, you are entitled to use the center free of charge for your parties, picnics, or other gatherings. By joining the association, you will not be expected to work or be on a committee. Donations of labor, materials, and financial support are always welcome, but not expected. If you are interested in joining the WBNA, you can contact Karyn Lord at 224-0186 for a membership form.

If you would like to share your ideas and opinions or are interested in running for a position on the board, please attend our annual meeting on Thursday, April 7th, 2005. We will be selecting four officers and three board of directors at this meeting. If you would like more information, please contact any current board member. Officers include: Beth Walls- President, Jeff Hodgson- Vice President, Karyn Lord- Treasurer, Aimee Bailey- Secretary. The board of directors are Lisa McFadden, Levi Walls, Martha Ripp, Doug Strander, and Wendy Smith. The address of the Waubesa Beach Neighborhood Center is 4372 Third Street, Madison, WI 53711.

TOWN HOLIDAY TREE

Residents who wish to donate an ornament with a patriotic theme for the Town Holiday Tree may do so by dropping off the ornament anytime before December 31. Residents are encouraged to label the ornament with their name and the year.

Tree Disposal

Waste Management will not pick up trees left at the curbside. Naked trees — trees without tinsel, decorations, or stands — can be taken to the town Transfer Center on County Road B for disposal. The Transfer Center is open the 1st and 3rd Saturday of the month from 8 AM to 4 PM. There is no disposal charge.

RECYCLING GUIDE

The small efforts we make each day to REDUCE, RE-USE, AND RECYCLE benefit our community and our environment for years to come. State law requires residents to recycle. This guide is designed to help you determine what to recycle, where to dispose of unusual items, and who to call if you have a question.

CURBSIDE RECYCLING

Curbside pick-up of recyclables is unlimited amounts.

Plastics - Numbers 1, 2, 3, 4, 5, 6, and 7 plastics are recyclable! Rinse and remove caps and rings; labels can remain. Flatten as much as possible. Bottles that have contained motor oil, medicine or chemicals cannot be accepted for recycling. All #2 plastic one and five gallon buckets can not be recycled.

Aluminum - only aluminum cans are accepted for recycling. Rinsing is encouraged. Don't include any other kinds of aluminum such as foil or aluminum pie plates in the recycling bin.

Tin Cans - Food cans only - no paint or chemical cans. Rinse, remove labels, and flatten. Put sharp lids in the trash.

Aerosol Cans - can be recycled! Make sure they are empty and remove plastic nozzles.

Glass - Jars and bottles can be recycled. Always rinse and remove the lid. Labels can remain on the container. Light bulbs, dishes, drinking glasses, mirrors and window glass can be recycled elsewhere or disposed of as trash.

Newspaper - Newsprint must be dry and bundled. Shiny inserts are acceptable. Place in brown paper bags. Do not mix with other types of paper.

Magazines - Tie with string in 6 inch stacks. Do not mix with other types of paper.

Telephone books - From the second week of January through the end of February, phone books are recycled. Any other time they must be placed in the trash.

Mixed Paper - Junk mail, office paper, soft drink/beer cartons can be recycled. Place in brown paper bag. Do not mix with newspapers or magazines.

Cardboard - Corrugated cardboard can be recycled. Flatten boxes and keep dry. Cut pieces into less than 3 foot squares and bundle with string or place in a grocery bag. Pizza boxes, egg containers and wax-coated boxes cannot be recycled.

Note: If it is raining or the forecast indicates rain is likely on pick-up day, please withhold cardboard, newspaper and other paper recyclables for the next pick-up. Wet paper cannot be recycled and ends up in our landfill.

Miscellaneous Items

Appliances, furniture and large items: Appliance pick up or drop off is available from Gary's Appliances, 2405 Vondron Rd. Call 221-1150 for more information. Most large items and appliances can be picked up by Waste Management, although you must call ahead and there may be a \$25.00 fee. For more information call (608) 273-2500.

Remodeling Debris: Waste Management can provide a dumpster. Please call (608) 273-2500 for pricing. You may be able to drop off construction materials at Madison Prairie Landfill, 3490 Nelson Rd. Please call ahead 837-9031.

Fluorescent Light Bulbs: Recycled through any retailer who sells fluorescent lamps or through Waste Management. Call to arrange pick up 800-236-1028.

Thermostats: Due to health problems associated with mercury, old thermostats and thermometers should be recycled through Dane County Clean Sweep, Madison Gas and Electric, First Supply Madison, Gustave A. Larson Co. or Warren Heating and Air Conditioning. For more information call Clean Sweep Coordinator Dave Radisewitz 608-294-5358.

Medical Waste: Waste Management will pick up medical waste that is properly labeled and sealed. Sharp objects such as needles, syringes, or lancets should be placed in a hard plastic or metal container that is puncture resistant and labeled "SHARPS". An empty laundry detergent jug or a red medical sharps container work well. Never use recyclable aluminum cans, glass or clear plastic jugs to dispose of sharps. Containers may then be placed next to your trash for pick up by Waste Management on regular trash pick up days.

Hazardous Materials: Paint, pesticides, poisons, solvents, ignitables, aerosols, sealants, fuel, oil and other hazardous materials must not end up in our landfill. Dispose of these items at Clean Sweep May 1 through October 30. Hours are Tuesday, Wednesday, Friday, Saturday 7:30 a.m. to 2:00 p.m. Clean Sweep is located at the Dane County Highway Garage 2302 Fish Hatchery Road Madison. For further information call the recorded information line at 608-294-5366 or contact Clean Sweep Coordinator Dave Radisewitz 608-294-5358 (office). For other possible drop off sites call the Wisconsin DNR at 275-3208.

Computers: Computers contain hazardous materials and should be recycled. Janssen Computers, 4325 Beltline Hwy, 274-1007 will take equipment for reuse or recycle. Cascade Asset Management also provides some recycling. Call 222-4800 for more information. Dane County's website lists many other options for computer disposal. Visit the Dane County website at www.countyofdane.com/pubworks/recyc.htm

Need Extra Curbside Pick-up? Call Waste Management

Town of Dunn households are allotted one 34 gallon container for solid waste and an unlimited volume of recyclables. Waste Management has provided two additional levels of service for residents that generate larger amounts of solid waste. An additional 64 gallons of solid waste can be picked up weekly for a fee of \$45 for the year and the resident will be provided with a 64-gallon toter. An additional 96 gallons of solid waste, can be picked up weekly at a cost of \$62.40 for the year and the resident will be provided with a 96-gallon toter. The cost for either level of additional service will be billed directly to the resident. Residents using the 64 or 96 gallon toters are also entitled to leave one 34 gallon bag for pick up in addition to the toter. The toters are instead of stickers and identify you as having extra service.

Large items such as mattresses, chairs, couches, etc, can be scheduled for pick up by calling (608) 273-2500. There is a cost of \$25.00 per item. These items are not picked up the same day as your regular service. Appliances such as washers, dryers, refrigerators, etc. can also be scheduled for pickup at the cost of \$25.00 per item by calling (608) 273-2500. Waste Management can also provide a dumpster for remodeling needs or cleanup. Please call (608) 273-2500 on the cost of renting a dumpster.

Town of Dunn Transfer Site

4030 County Road B

¼ mile east of the Dunn Town Hall

Open the 1st and 3rd Saturdays of every month from 8 AM to 4 PM during the fall and winter.

The Transfer Site accepts:

- Scrap Metal
- Motor Oil
- Yard Waste
- Brush and Wood
- Batteries
- Tires

Scrap metal - Scrap iron, steel, copper, and other metals are accepted. We **don't** accept compressors or motors.

Motor oil - Used motor oil that is free of other liquids such as antifreeze is accepted. Either reuse your used motor oil container or dispose of it in the trash. Don't leave oil containers near the used oil tank.

Leaves and grass clippings - Put any compostable material in the compost pile at the Transfer Site, or compost them yourself at home.

Brush and Wood - We take brush and limbs that are free of soil. We cannot take stumps or painted lumber. Dane County's landfill will take tree stumps.

Tires - We charge \$3 for auto tires \$4 for tires with rims. Tires (rims removed) can be taken to the Dane County Landfill for a small fee.

Questions? Call the Town Hall at 255-4219
